

DoubleLine Corporate Overview

September 2022

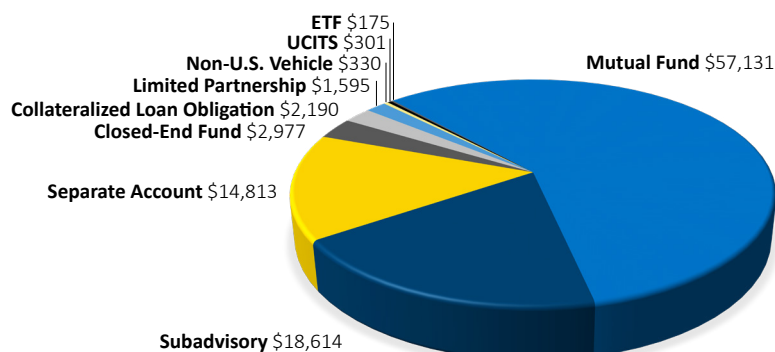

DoubleLine is an independent, employee-owned money management firm with over \$98 billion in combined assets under management invested across a wide array of investment strategies. The firm's experienced team of portfolio managers have worked together on average 15 years. DoubleLine's investment strategies include U.S. Fixed Income, Global Fixed Income, Emerging Markets Fixed Income, U.S. Equity, Commodities, and Global Multi-Asset products.

Our Logo, Name, and Cardinal Mandate

The logo for DoubleLine was inspired by Piet Mondrian. Mondrian's achievement of dynamism with balance is a worthy objective for investing. DoubleLine strives to integrate risk management with the pursuit of excess return while not crossing the double yellow line of risk on the road to successful investing. Our cardinal mandate is to strive for superior risk-adjusted returns over a market cycle.

Company Facts

- Employee-owned and operated
- Experienced investment teams
- 290 total employees and 111 investment professionals
- DoubleLine manages several types of investment vehicles:

DoubleLine Advantage

Stability of the Team

Although DoubleLine was founded in 2009, the portfolio management team averages 23 years of experience and 15 years working together. We believe the longer the team has worked together, the more consistent its philosophy and process is ingrained in its institutional memory. Over the years, the team has deftly navigated several market cycles. The longevity and stability of the team distinguishes DoubleLine from other managers.

Investment Horizon

DoubleLine typically utilizes an investment horizon of 18-24 months. We believe a longer time horizon can increase the chance of success for attractive risk-adjusted returns. It helps reduce portfolio turnover which potentially helps manage liquidity risk. We believe this longer-term approach is in our clients' best interests and helps avoid potential losses from knee-jerk reactions to short-term market fluctuations.

Active Risk Management

Combining our top-down, committee-based approach with bottom-up fundamental analysis, we evaluate each investment using scenario and risk analysis. In our view, the key to better risk management is not how investments compare to benchmarks, but how their risks integrate across a portfolio. We believe active management can provide superior long-term risk-adjusted returns.

Employee Ownership

DoubleLine's employee-owned structure and compensation structure more closely align the long-term interests of the firm with the interests of its clients to provide a more stable platform. DoubleLine compensates investment professionals based on the firm's overall performance and their contribution to success. This structure provides incentive for every investment team member to "row in the same direction" and to focus on the long-term goal of outperforming for our clients.

Accolade Disclosure

Risk Magazine, **Institutional Investor of the Year**. Institutional investor award winners are chosen by the editorial staff of Institutional Investor magazine based on their market intelligence, performance data and additional information received from the industry following a public call for nominations.

Business Insider, **10 Must-Listen Investing Podcasts**. Competiello, Christopher. "These 10 must-listen podcasts can help you master investing, from day-trading to real estate." Business Insider. 5 March, 2020. Opinion based article.

Bloomberg Markets Magazine, **50 Most Influential**. Bloomberg Markets 50 Most Influential magazine editors favor recent accomplishments above lifetime achievements to build their list. They rely on the rankings, profiles, and cover stories they publish throughout the year in Bloomberg Markets.

Barron's, **100 Most Influential Women in U.S. Finance**. Honorees were chosen by a panel of Barron's writers and editors, based on external and Barron's nominations. It includes chief financial officers at major U.S. companies, leading executives at some of the nation's largest banks and brokerages, stellar investment managers and securities analysts, and public servants and policy makers.

Important Information Regarding This Material

Issue selection processes and tools illustrated throughout this presentation are samples and may be modified periodically. These are not the only tools used by the investment teams, are extremely sophisticated, may not always produce the intended results and are not intended for use by non-professionals.

DoubleLine has no obligation to provide revised assessments in the event of changed circumstances. While we have gathered this information from sources believed to be reliable, DoubleLine cannot guarantee the accuracy of the information provided. Securities discussed are not recommendations and are presented as examples of issue selection or portfolio management processes. They have been picked for comparison or illustration purposes only. No security presented within is either offered for sale or purchase. DoubleLine reserves the right to change its investment perspective and outlook without notice as market conditions dictate or as additional information becomes available. This material may include statements that constitute "forward-looking statements" under the U.S. securities laws. Forward-looking statements include, among other things, projections, estimates, and information about possible or future results related to a client's account, or market or regulatory developments

Important Information Regarding Risk Factors

Investment strategies may not achieve the desired results due to implementation lag, other timing factors, portfolio management decision-making, economic or market conditions or other unanticipated factors. The views and forecasts expressed in this material are as of the date indicated, are subject to change without notice, may not come to pass and do not represent a recommendation or offer of any particular security, strategy, or investment. All investments involve risks. Please request a copy of DoubleLine's Form ADV Part 2A to review the material risks involved in DoubleLine's strategies. Past performance is no guarantee of future results.

Important Information Regarding DoubleLine's Investment Style

DoubleLine seeks to maximize investment results consistent with our interpretation of client guidelines and investment mandate. DoubleLine cannot guarantee that DoubleLine will outperform a client's specified benchmark or the market or that DoubleLine's risk management techniques will successfully mitigate losses. Additionally, the nature of portfolio diversification implies that certain holdings and sectors in a client's portfolio may be rising in price while others are falling or that some issues and sectors are outperforming while others are underperforming. Such out or underperformance can be the result of many factors, such as, but not limited to, duration/interest rate exposure, yield curve exposure, bond sector exposure, or news or rumors specific to a single name.

DoubleLine is an active manager and will adjust the composition of clients' portfolios consistent with our investment team's judgment concerning market conditions and any particular sector or security. The construction of DoubleLine portfolios may differ substantially from the construction of any of a variety of market indices. As such, a DoubleLine portfolio has the potential to underperform or outperform a bond market index. Since markets can remain inefficiently priced for long periods, DoubleLine's performance is properly assessed over a full multi-year market cycle.
