This news release is not for tax reporting purposes. The news release has been issued to announce the amount and timing of the distribution declared by the Board of Trustees. Distributions may include ordinary income, capital gains or return of capital. The amount of distributable income and the tax characteristics of the Fund's distributions are determined at the end of the taxable year. In early 2027, the Fund will send shareholders a Form 1099-DIV specifying how the distributions paid by the Fund during the prior calendar year should be characterized for purposes of reporting the distributions on a shareholder's tax return.

About DoubleLine Yield Opportunities Fund

The Fund's investment objective is to seek a high level of total return, with an emphasis on current income. DoubleLine believes active asset allocation across a broad range of fixed income sectors with a disciplined approach to risk management offers value-added opportunities for both income and capital growth. The Fund cannot ensure that it will achieve its investment objective, and investing in the Fund involves risks, including the risk that you may receive little or no return on your investment or that you may lose part or even all of your investment.

Fund investing involves risk. Principal loss is possible.

Shares of closed-end investment companies frequently trade at a discount to their net asset value, which may increase investors' risk of loss. This risk may be greater for investors expecting to sell their shares in a relatively short period after the completion of the public offering. There are risks associated with investment in the Fund.

An investment in the Fund involves certain risks arising from, among other things, the Fund's ability to invest without limit in debt securities that are at the time of investment rated below investment grade or unrated securities judged by DoubleLine to be of comparable quality (a category of investment that includes securities commonly referred to as "high yield" securities or "junk bonds"). Securities of below investment grade quality are regarded as having predominantly speculative characteristics with respect to the issuer's capacity to pay interest and to repay principal when due. An investment in the Fund is also subject to the risk of the use of leverage. Investments in debt securities typically decline in value when interest rates rise. This risk is usually greater for longer-term debt securities. Investments in asset-backed and mortgage-backed securities include additional risks that investors should be aware of including credit risk, prepayment risk, possible illiquidity and default, as well as increased susceptibility to adverse economic developments.

Past performance is no guarantee of future results. The Fund may invest in foreign securities which involve greater volatility and political, economic and currency risks and differences in accounting methods. These risks are greater for investments in emerging markets. Investments in lower rated and non-rated securities present a greater risk of loss to principal and interest than higher rated securities. Investment strategies may not achieve the desired results due to implementation lag, other timing factors, portfolio management decisions-making, economic or market conditions or other unanticipated factors. In addition, the Fund may invest in other asset classes and investments such as, among others, REITs, credit default swaps, short sales, derivatives and smaller companies which include additional risks. The Fund is a non-diversified, limited term, closed-end management investment company.

expressed herein (including any forward-looking statements) may not be relied upon as investment advice or as an indication of the Fund's trading intent. Information included herein is not an indication of the Fund's future portfolio composition.

Distributions include all distribution payments regardless of source and may include net income, capital gains, and/or return of capital (ROC). ROC should not be confused with yield or income. The Fund's Section 19a-1 Notice, if applicable, contains additional distribution composition information and may be obtained by visiting www.doubleline.com. Final determination of a distribution's tax character will be reported on Form 1099 DIV and sent to shareholders. On a tax basis, as of Oct. 30, 2026, the estimated component of the cumulative distribution for the fiscal year-to-date would include an estimated return of capital of $0.00 (0%) per share. This amount is an estimate and the actual amounts and sources for tax reporting purposes may change upon final determination of tax characteristics and may be subject to changes based on tax regulations.

Any tax or legal information provided is merely a summary of our understanding and interpretation of some of the current income tax regulations and is not exhaustive. Investors must consult their tax advisor or legal counsel for advice and information concerning their particular situation. Neither the Fund nor any of its representatives may give legal or tax advice.
