- (a) Security exempt from registration under Rule 144A of the Securities Act of 1933. These securities may be resold in transactions exempt from registration to qualified institutional buyers.
- (b) Security pays interest at rates that represent residual cashflows available after more senior tranches have been paid. The interest rate disclosed reflects the estimated rate in effect as of period end.
- (c) Coupon rate is variable based on the weighted average coupon of the underlying collateral. To the extent the weighted average coupon of the underlying assets which comprise the collateral increases or decreases, the coupon rate of this security will increase or decrease correspondingly. The rate disclosed is as of period end.
- (d) Value determined using significant unobservable inputs.
- (e) Coupon rate is variable or floats based on components including but not limited to reference rate and spread. These securities may not indicate a reference rate and/or spread in their description. The rate disclosed is as of period end.
- (f) Interest only security
- (g) Inverse floating rate security whose interest rate moves in the opposite direction of reference interest rates. Reference interest rates are typically based on a negative multiplier or slope. Interest rate may also be subject to a cap or floor.
- (h) Principal only security
- (i) Seven-day yield as of period end
- (j) This security accrues interest which is added to the outstanding principal balance. The interest payment will be deferred until all other tranches in the structure are paid off. The rate disclosed is as of period end.
- (k) The interest rate may step up conditioned upon the aggregate remaining principal balance of the underlying mortgage loans being reduced below a targeted percentage of the aggregate original principal balance of the mortgage loans. The interest rate shown is the rate in effect as of period end.
- (l) The interest rate will step up if the issuer does not redeem the bond on or before a scheduled redemption date in accordance with the terms of the instrument. The interest rate shown is the rate in effect as of period end.

FUTURES CONTRACTS

Description	Long/Short	Contract Quantity	Expiration Date	Notional Amount(1)	Ap	e/Unrealized preciation preciation)
10-Year US Treasury Ultra Note Future	Long	1,909	12/20/2022	226,186,672	\$	3,168,490
US Treasury Ultra Long Bond Future	Long	3,240	12/20/2022	443,880,000		(2,524,464)
					\$	644,026

(1) Notional Amount is determined based on the number of contracts multiplied by the contract size and the quoted daily settlement price in US dollars.
